

**CREDENTIALING AND RE-PRIVILEGING COMMITTEE  
(CRC) APPLICATION FORM**

**SURGERY - ENT**

PHYSICIAN'S NAME : \_\_\_\_\_

DEPARTMENT :           **SURGERY**

DIVISION (IF ANY) :     **ENT**

SPECIALTY (IF ANY) :   **ENT**

DATE APPLIED :         \_\_\_\_\_

**NOTE:** At the time of a life-threatening clinical emergency, any practitioner may render whatever care he/she believes to be indicated regardless of the extent of his/her granted privileges, if expertise not available.

THE FOLLOWING LIST OF PROCEDURES IS GRANTED BY THE CRC COMMITTEE AS PART OF YOUR DUTIES AS MEMBER OF THE MEDICAL STAFF OF TAWAM HOSPITAL.

Note: (DO NOT MARK AN "X" IN MORE THAN ONE COLUMN FOR EACH PROCEDURE INDICATED).

PROCEDURES	ESTIMATE # OF PROCEDURES DONE IN THE PAST 5 YEARS	SOLE MANAGEMENT	ONLY WITH SUPERVISION	ASSIST ONLY
<b>OPERATIONS ON THE EAR</b>				
1. Operations on external ear includes: operations on: external auditory canal skin and cartilage of: auricle meatus.				
1.0 Incision of external ear				
Piercing of ear lobe				
Incision of external auditory canal				
Other incision of external ear				
1.1 Diagnostic procedures on external ear				
Otoscopy				
Biopsy of external ear				
Other diagnostic procedure on external ear				
1.2 Excision or destruction of lesion of external ear				
Excision of preauricular sinus				
Radical excision of preauricular sinus or cyst				
Excision or destruction of other lesion of external ear				
Cauterization of external ear				
Coagulation of external ear				
Cryosurgery of external ear				
Curettage of external ear				
Enucleation of external ear				
Excision of:				
Exostosis of external auditory canal				
Preauricular remnant [appendage]				
Partial excision of ear				
1.3 Other excision of external ear				
Radical excision of lesion of external ear				
Suture of laceration of external ear				
Other operations on external ear				
Irrigation of ear				
Packing of external auditory canal				
Removal of:				
Cerumen				
Foreign body (without incision)				

PROCEDURES	ESTIMATE # OF PROCEDURES DONE IN THE PAST 5 YEARS	SOLE MANAGEMENT	ONLY WITH SUPERVISION	ASSIST ONLY
1.4 Middle ear surgery				
Myringoplasty				
Epitympanic, Type 1				
Myringoplasty by:				
-Cauterization				
-Graft				
-Tympanoplasty (Type 1)				
Myringotomy with insertion of tube				
Myringostomy				
Other myringotomy				
Removal of tympanostomy tube				
1.5 Incision of mastoid and middle ear				
Incision of mastoid				
Incision of petrous pyramid air cells				
Incision of middle ear				
Atticotomy				
Division of tympanum				
Lysis of adhesions of middle ear				
1.6 Diagnostic procedures on middle and inner ear				
Electrocochleography				
Biopsy of middle and inner ear				
Other diagnostic procedures on middle and inner ear				
1.7 Mastoidectomy				
Simple mastoidectomy				
Radical mastoidectomy				
Other mastoidectomy				
Atticoantrostomy				
Mastoidectomy: modified radical				
2. OPERATIONS ON THE NOSE, MOUTH AND PHARYNX				
2.0 Control of epistaxis				
Control of epistaxis, not otherwise specified				
Control of epistaxis by anterior nasal packing				
Control of epistaxis by posterior (and anterior) Packing				
Control of epistaxis by cauterization (and packing)				
Control of epistaxis by ligation of ethmoidal arteries				
Control of epistaxis by (transantral) ligation of the maxillary artery				
Control of epistaxis by ligation of the external carotid artery				
Control of epistaxis by excision of nasal mucosa and skin grafting of septum and lateral nasal wall				
Control of epistaxis by other means				
2.1 Incision of nose				
Chondrotomy				
Incision of skin of nose				

<b>PROCEDURES</b>	<b>ESTIMATE # OF PROCEDURES DONE IN THE PAST 5 YEARS</b>	<b>SOLE MANAGEMENT</b>	<b>ONLY WITH SUPERVISION</b>	<b>ASSIST ONLY</b>
Nasal septotomy				
2.2 Diagnostic procedures on nose				
Rhinoscopy				
Biopsy of nose				
Other diagnostic procedures on nose				
2.3 Local excision or destruction of lesion of nose				
Excision o destruction of lesion of nose, not otherwise specified				
Local excision or destruction of intranasal lesion				
Nasal polypectomy				
Local excision or destruction of other lesion of nose				
Resection of nose				
Amputation of nose				
Submucous resection of nasal septum (Killian type)				
Septoplasty				
2.4 Turbinectomy				
Turbinectomy by diathermy or cryosurgery				
Fracture of the turbinates				
Other turbinectomy, turbinoplasty				
2.5 Reduction of nasal fracture				
Closed reduction of nasal fracture				
Open reduction of nasal fracture				
2.6 Repair on the nose				
Suture of laceration of nose				
Closure of nasal fistula				
Nasolabial fistulectomy				
Oronasal fistulectomy				
2.7 Other repair and plastic operations on nose				
Reattachment of amputated nose				
3.0 Operations on nasal sinuses				
3.1 Aspiration and lavage of nasal sinus				
Aspiration and lavage of nasal sinus				
Aspiration and lavage of nasal sinus, not otherwise specified				
Puncture of nasal sinus for aspiration or lavage				
Aspiration and lavage of nasal sinus through natural ostium				
3.2 Diagnostic procedures on nasal sinus				
Diagnostic procedures on nasal sinus				
Closed [endoscopic] [needle] biopsy of nasal sinus				
Open biopsy of nasal sinus				
Other diagnostic procedures on nasal sinuses				
Endoscopy without biopsy				
Intranasal antrotomy				
3.3 External maxillary antrotomy				
External maxillary antrotomy				

PROCEDURES	ESTIMATE # OF PROCEDURES DONE IN THE PAST 5 YEARS	SOLE MANAGEMENT	ONLY WITH SUPERVISION	ASSIST ONLY
Radical maxillary antrotomy				
Removal of lining membrane of maxillary sinus using Caldwell-Luc approach				
Other external maxillary antrotomy				
Exploration of maxillary antrum with Caldwell-Luc approach				
3.4 Frontal sinusotomy and sinusectomy				
Frontal sinusotomy				
Frontal sinusectomy				
Excision of lesion of frontal sinus				
Obliteration of frontal sinus (with fat)				
3.5 Other nasal sinusotomy				
Sinusotomy, not otherwise specified				
Ethmoidotomy				
Incision of multiple nasal sinuses				
3.6 Repair of nasal sinus				
Repair of nasal sinus				
Closure of nasal sinus fistula				
Repair of oro-antral fistula				
Other repair of nasal sinus				
Reconstruction of frontonasal duct				
Repair of bone of accessory sinus				
3.7 Other operations on nasal sinuses				
Exteriorization of maxillary sinus				
Fistulization of sinus				
3.8 Removal of teeth				
4. Operations on salivary glands and ducts includes operations on:				
Lesser salivary gland and duct				
Parotid gland and duct				
Sublingual gland and duct				
Submaxillary gland and duct				
Incision of salivary gland or duct				
4.1 Diagnostic procedures on salivary glands and ducts				
Closed [needle] biopsy of salivary gland or duct				
Open biopsy of salivary gland or duct				
Other diagnostic procedures on salivary glands and ducts				
4.2 Excision of lesion of salivary gland				
Marsupialization of salivary gland cyst				
Other excision of salivary gland lesion				
4.3 Sialoadenectomy				
Sialoadenectomy, not otherwise specified				
Partial Sialoadenectomy				
Complete Sialoadenectomy				
En bloc excision of salivary gland lesion				
Radical Sialoadenectomy				

PROCEDURES	ESTIMATE # OF PROCEDURES DONE IN THE PAST 5 YEARS	SOLE MANAGEMENT	ONLY WITH SUPERVISION	ASSIST ONLY
4.4 Repair of salivary gland or duct				
Repair of salivary gland or duct				
Suture of laceration of salivary gland				
Closure of salivary fistula				
Other repaid and plastic operations on salivary gland or duct				
Fistulization of salivary gland				
Plastic repair of salivary gland or duct NOS				
Transplantationof salivary duct opening				
4.5 Other operations on salivary gland or duct				
Probing of salivary duct				
4.6 Other operations on mouth and face includes operations on:				
Lips, palate, soft tissue of face and mouth, except tongue and gingiva				
5. Drainage of face and floor of mouth				
Drainage of:				
Facial region (abscess)				
Facial compartment of face				
Ludwig's angina				
5.1 Incision of palate				
5.2 Diagnostic procedures on oral cavity				
Biopsy of bony palate				
Biopsy of uvula and soft palate				
Biopsy of lip				
Biopsy of mouth, unspecified structure				
Other diagnostic procedures on oral cavity				
5.3 Excision of lesion or tissue of bony palate				
Local excision or destruction of lesion or tissue of bony palate				
Local excision or destructionof palate by:				
Cautery				
Chemotherapy				
Cryotherapy				
Wide excision or destruction of lesion or tissue of bony plate				
En bloc resection of alveolar process and palate				
5.4 Excision of other parts of mouth				
Labial frenectomy				
Wide excisionof lesion of lip				
Other excisionof lesion or tissue of lip				
Other excisionof mouth				
5.5 Plastic repair of mouth				
Suture of laceration of lip				
Suture of laceration of other part of mouth				
Closure of fistula of mouth				
Repair of cleft lip				
Full-thickness skin graft to lip an mouth				

PROCEDURES	ESTIMATE # OF PROCEDURES DONE IN THE PAST 5 YEARS	SOLE MANAGEMENT	ONLY WITH SUPERVISION	ASSIST ONLY
Other skin graft to lip and mouth				
Attachment of pedicle or flap graft to lip and mouth				
5.6 operations on uvula				
Incision of uvula				
Excision of uvula				
Repair of uvula				
Other operations on uvula				
5.7 Other operations on mouth and face				
Labial frenotomy				
Division of labial frenum				
Incision of mouth, unspecified structure				
Other operations on oral cavity				
Graft buccal sulcus				
6. Operations on tonsils and adenoids				
6.0 Incision and drainage of tonsils and peritonsillar structures				
Drainage [oral] [transcervical] of:				
Parapharyngeal abscess				
Peritonsillar abscess				
Retropharyngeal abscess				
Tonsillar abscess				
6.1 Diagnostic procedure on tonsils and adenoids				
Biopsy of tonsils and adenoids				
Other diagnostic procedures on tonsils and adenoids				
6.2 Tonsillectomy without adenoidectomy				
6.3 Tonsillectomy with adenoidectomy				
6.4 Excision of tonsil tag				
6.5 Excision of lingual tonsil				
6.6. Adenoidectomy without tonsillectomy				
Excision of adenoid tag				
6.7 Control of hemorrhage after tonsillectomy and adenoidectomy				
6.8 Other operations on tonsils and adenoids				
6.9 other operations on tonsils and adenoids				
Removal of foreign body from tonsil and adenoid by incision				
Excision of lesion of tonsil and adenoid				
7. Operations on pharynx				
Includes: operations on:				
hypopharynx				
nasopharynx				
oropharynx				
pharyngeal pouch				
pyriform sinus				
<b>7.0 Pharyngotomy</b>				
Drainage of pharyngeal bursa				
7.1 diagnostic procedures on pharynx				

PROCEDURES	ESTIMATE # OF PROCEDURES DONE IN THE PAST 5 YEARS	SOLE MANAGEMENT	ONLY WITH SUPERVISION	ASSIST ONLY
Pharyngoscopy				
Pharyngeal biopsy				
Biopsy of supraglottic mass				
Other diagnostic procedures on pharynx				
<b>7.2 Excision of branchial cleft cyst or vestige</b>				
7.3 Excision or destruction of lesion or tissue of pharynx				
7.4 Other repair of pharynx				
<b>Suture of laceration of pharynx</b>				
<b>Closure of branchial cleft fistula</b>				
<b>Closure of other fistula of pharynx</b> Pharyngoesophageal fistulectomy				
<b>Lysis of pharyngeal adhesions</b>				
<b>Other</b>				
7.5 Other operations on pharynx				
<b>Dilation of pharynx, larynx, oesophagus</b> Dilation of nasopharynx				
<b>OPERATIONS ON THE RESPIRATORY SYSTEM</b>				
<b>8 Excision of larynx</b>				
<b>Laryngectomy totalis</b>				
8.0 Excision or destruction of lesion or tissue of larynx				
<b>Excision or destruction of lesion or tissue of larynx</b>				
<b>Marsupialization of laryngeal cyst</b>				
<b>Other excision or destruction of lesion or tissue of larynx</b> Stripping of vocal cords				
8.3 Other operations on larynx and trachea				
<b>Other operations on larynx and trachea</b>				
<b>Injection of larynx</b> Injection of inert material into larynx or vocal cords				
<b>Temporary tracheostomy</b> Tracheotomy for assistance in breathing				
<b>8.4 Permanent tracheostomy</b>				
<b>Permanent tracheostomy</b>				
8.5 Diagnostic procedures on larynx and trachea				
Diagnostic procedures on larynx and trachea				
Tracheoscopy through artificial stoma				
Laryngoscopy and other tracheoscopy				
Closed [endoscopic] biopsy of larynx				
Closed [endoscopic] biopsy of trachea				
Open biopsy of larynx or trachea				
Other diagnostic procedures on larynx				
Tracheo-bronchoscopy( Rigid)				
Tracheo-bronchoscopy (flexible)				
Removal of Foreign Body from trachea				
Diagnostic procedures on larynx and trachea				
Local excision or destruction of lesion or tissue of trachea				
8.6 Repair of larynx				

PROCEDURES	ESTIMATE # OF PROCEDURES DONE IN THE PAST 5 YEARS	SOLE MANAGEMENT	ONLY WITH SUPERVISION	ASSIST ONLY
Suture of laceration of larynx				
Closure of fistula of larynx Laryngotracheal fistulectomy Take-down of laryngostomy				
Revision of laryngostomy				
Repair of laryngeal fracture				
Other repair of larynx Arytenoidopexy Graft of larynx Transposition of vocal cords				
<b>8.7 Repair and plastic operations on trachea</b>				
Suture of laceration of trachea				
Closure of external fistula of trachea Closure of tracheotomy				
Suture of laceration of trachea				
<b>Closure of other fistula of trachea</b> Tracheoesophageal fistulectomy				
<b>Revision of tracheostomy</b>				
<b>8.8 Other operations on larynx and trachea</b>				
Other operations on larynx and trachea				
Division of laryngeal nerve				
Lysis of adhesions of trachea or larynx (endoscopic with Laser)				
Replacement of laryngeal or tracheal stent				
Injection of locally-acting therapeutic substance into trachea				
Tracheoesophageal fistulization				
Other operations on larynx				
Dilation of larynx				
Division of congenital web of larynx (endoscopic with Laser)				
Removal of keel or stent of larynx				
Other operations on trachea				
<b>OPERATIONS ON THE DIGESTIVE SYSTEM</b>				
<b>9. Operations on lymphatic system</b>				
<b>9.1 Diagnostic procedures on lymphatic structures</b>				
Diagnostic procedures on lymphatic structures				
Biopsy of lymphatic structure				
Other diagnostic procedures on lymphatic structures				
<b>9.2 Simple excision of lymphatic structure</b>				
Regional lymph node excision				
Extended regional lymph node excision				
Regional lymph node excision with excision of lymphatic drainage area including skin, subcutaneous tissue, and fat				
Excision of deep and superficial cervical lymph node				
<b>9.3 Removal of mass of different histology from neck (cyst, lymph node, tumours, diverticulum etc...)</b> <b>Radical excision of cervical lymph nodes</b>				

PROCEDURES	ESTIMATE # OF PROCEDURES DONE IN THE PAST 5 YEARS	SOLE MANAGEMENT	ONLY WITH SUPERVISION	ASSIST ONLY
Resection of cervical lymph nodes down to muscle and deep fascia				
<b>Radical neck dissection, not otherwise specified</b>				
<b>Radical neck dissection, unilateral</b>				
<b>Radical neck dissection, bilateral</b>				
<b>10. Operations on lacrimal system</b>				
<b>10.0 Incision of lacrimal gland</b>				
Incision of lacrimal cyst (with drainage)				
<b>10.1 Diagnostic procedures on lacrimal system</b>				
Includes: removal of calculus that with dilation				
<b>10.3 Incision of lacrimal sac and passages</b>				
<b>11 Oesophagus surgeries</b>				
Oesophagoscopy- rigid				
Removal of FB				
Biopsy				
<b>Surgical correction of prominent ear</b>				
Ear:				
pinning				
setback				
<b>Reconstruction of external auditory canal</b>				
Canaloplasty of external auditory meatus				
Construction [reconstruction] of external meatus of ear:				
osseous portion				
<b>Skin-lined portion (with skin graft)</b>				
<b>Other plastic repair of external ear</b>				
<b>Construction of auricle of ear</b>				
Prosthetic appliance for absent ear				
Reconstruction:				
auricle				
ear				
<b>Other plastic repair of external ear</b>				
Otoplasty NOS				
Postauricular skin graft				
Repair of lop ear				
<b>Exploration of facial nerve (periferial part, middle ear &amp; mastoid section)</b>				
<b>Stapes mobilization</b>				
Division, otosclerotic:				
material				
process				
Remobilization of stapes				
Stapediolysis				
Transcrrural stapes mobilization				
Stapedectomy				
<b>Stapedectomy with incus replacement</b>				
Stapedectomy with incus:				
homograft				
prosthesis				

PROCEDURES	ESTIMATE # OF PROCEDURES DONE IN THE PAST 5 YEARS	SOLE MANAGEMENT	ONLY WITH SUPERVISION	ASSIST ONLY
Other stapedectomy				
<b>Revision of stapedectomy</b>				
<b>Revision of stapedectomy with incus replacement</b>				
<b>Other revision of stapedectomy</b>				
<b>Other operations on ossicular chain</b>				
Incudectomy NOS				
Ossiculectomy NOS				
Reconstruction of ossicles, second stage				
<b>Other tympanoplasty</b>				
<b>Type II tympanoplasty</b>				
Closure of perforation with graft against incus or malleus				
<b>Type III tympanoplasty</b>				
Graft placed in contact with mobile and intact stapes				
<b>Type IV tympanoplasty</b>				
Mobile footplate left exposed with air pocket between round window and graft				
<b>Type V tympanoplasty</b>				
Fenestra in horizontal semicircular canal covered by graft				
<b>Revision of tympanoplasty</b>				
<b>Other repair of middle ear</b>				
Closure of mastoid fistula				
Mastoid myoplasty				
Obliteration of tympanomastoid cavity				
<b>Revision of tympanoplasty</b>				
<b>Other repair of middle ear</b>				
Closure of mastoid fistula				
Mastoid myoplasty				
Obliteration of tympanomastoid cavity				
Labyrinth with graft [skin] [vein]				
Semicircular canals with graft [skin] [vein]				
vestibule with graft (skin) (vein)				
<b>Excision of lesion of middle ear</b>				
<b>Apicectomy of petrous pyramid</b>				
<b>Incision, excision, and destruction of inner ear</b>				
<b>Endolymphatic shunt</b>				
<b>Injection into inner ear</b>				
Destruction by injection (alcohol):				
inner ear				
semicircular canals				
vestibule				
<b>Other incision, excision, and destruction of inner ear</b>				
Decompression of labyrinth				
Drainage of inner ear				
Fistulization:				
endolymphatic sac				
labyrinth				
Incision of endolymphatic sac				
Labyrinthectomy (transtympanic)				
Opening of bony labyrinth				
Perilymphatic tap				
<b>Other operations on inner and middle ear</b>				
<b>Tympanosympathectomy</b>				

PROCEDURES	ESTIMATE # OF PROCEDURES DONE IN THE PAST 5 YEARS	SOLE MANAGEMENT	ONLY WITH SUPERVISION	ASSIST ONLY
<b>Revision of mastoidectomy</b>				
<b>Repair of oval and round windows</b> Closure of fistula: oval window perilymph round window				
<b>Implantation of electromagnetic hearing device</b>				
Bone conduction hearing device				
<b>Other operations on middle and inner ear</b>				
Repair or removal of cochlear prosthetic device (receiver) (electrode)				
Inplantation of hearing aid/ device in middle ear				
FESS ( Functional endoscopic sinus surgery)				
<b>Total nasal reconstruction</b>				
Reconstruction of nose with: arm flap forehead flap				
<b>Revision rhinoplasty</b>				
Rhinoseptoplasty Twisted nose rhinoplasty				
<b>Augmentation rhinoplasty</b>				
Augmentation rhinoplasty with: graft synthetic implant				
<b>Limited rhinoplasty</b>				
Plastic repair of nasolabial flaps Tip rhinoplasty				
<b>Other rhinoplasty - Rhinoplasty NOS</b>				
<b>Special septoplasty</b>				
Crushing of nasal septum Repair of septal perforation				
<b>Sphenoidotomy</b>				
<b>Closure of CSF fistula of nose</b>				
<b>Plate reconstruction of fractured facial bones</b>				
<b>Reconstruction of fractured mandibulae</b>				
<b>Cricopharyngeal myotomy</b>				
<b>Plastic operation on pharynx</b>				
Correction of nasopharyngeal atresia				
<b>Pharyngeal diverticulectomy</b>				
<b>Pharyngectomy (partial/ total) plus reconstruction surgery of pharynx</b>				
<b>Plastic surgery of choanal atresia (re-canalizing procedures)</b>				
<b>Radical laryngectomy</b>				
<b>Partial laryngectomy</b>				
<b>Hemilaryngectomy</b>				
<b>Laryngectomy partialis</b>				
<b>Laryngectomy partialis with LASER</b>				
<b>Epiglottidectomy</b>				
<b>Vocal cordectomy</b>				
Excision of vocal cords				

PROCEDURES	ESTIMATE # OF PROCEDURES DONE IN THE PAST 5 YEARS	SOLE MANAGEMENT	ONLY WITH SUPERVISION	ASSIST ONLY
<b>Other partial laryngectomy</b>				
Excision of laryngeal cartilage				
<b>Complete laryngectomy</b>				
Block dissection of larynx (with thyroidectomy) (with synchronous tracheostomy)				
Laryngopharyngectomy				
<b>Radical laryngectomy</b>				
Complete [total] laryngectomy with radical neck dissection (with thyroidectomy) (with synchronous				
Surgical techniques to enlarge aditus larynges (external or intralaryngeal approach)				
<b>Reconstruction of trachea and construction of artificial larynx</b>				
Tracheoplasty with artificial larynx				
<b>Inplantation of voice prosthesis</b>				
<b>Fistulization of lacrimal tract to nasal cavity</b>				
Dacryryo-cysto –rhinostomy-with LASER				
Dacryryo-cysto –rhinostomy-with SHAVER				
Dacryryo-cysto –rhinostomy-with DRILL				
Dacryryo-cysto –rhinostomy-normal cold instruments				
Dacryryo-cysto –rhinostomy-with external approach				
<b>Excision of deep and superficial cervical lymph node</b>				
<b>Radical excision of cervical lymph nodes</b>				
Resection of cervical lymph nodes down to muscle and deep fascia				
<b>Radical neck dissection, not otherwise specified</b>				
<b>Radical neck dissection, unilateral</b>				
<b>Radical neck dissection, bilateral</b>				
<b>Selective Neck Dissection</b>				
<b>Functional Neck Dissection</b>				
<b>Percutan endoscopic gastrostomy</b>				
<b>Percutan endoscopic tracheostomy</b>				
<b>Parotidectomy partialis/superficialis</b>				
<b>Parotidectomy totalis</b>				
<b>Parotidectomy radicalis</b>				
<b>Implantation or replacement of cochlear prosthetic device, not otherwise specified</b>				
Implantation of receiver (within skull) and insertion of electrode(s) in the cochlea				
Includes: mastoidectomy				
<b>Implantation or replacement of cochlear prosthetic device, single channel</b>				
Implantation of receiver (within skull) and insertion of electrode in the cochlea				
Includes: mastoidectomy				
<b>Implantation or replacement of cochlear prosthetic device, multiple channel</b>				
Implantation of receiver (within skull) and insertion of electrodes in the cochlea				
Includes: mastoidectomy				

 Please attach to this form the following document/s:  
Evidence of level of training & expertise attained to carry out the requested procedures.

<b>ADDITIONAL CLINICAL PRIVILEGES</b> (Special Procedures)
(type detailed description) USE SEPARATE SHEET OF PAPER IF REQUIRED & ATTACH TO THIS SHEET

**IF AT ANY STAGE YOU WISH TO PERFORM ANY SURGICAL OR THERAPEUTIC PROCEDURE WHICH IS NOT LISTED IN THIS APPLICATION, YOU MUST REFER IT TO THE CREDENTIALS & APPOINTMENT COMMITTEE.**
